React JS, Router, Redux, Hooks

Languages:

Russian – Native
Ukrainian – Native
English – B1

Few words

Hi, I am 28 years old and I am looking for a company in which I can gain experience to improve skills and knowledge. I clearly realize the value of continuous growth. Having gained experience in other areas, I realized that the last 5 years have been lost and I definitely don't want to lose the following. Programming has always been magic for me, which is now at my fingertips.

Experience

Code examples:
